Phone: (253)-880-5695 | Email: noahbrown2663@gmail.com | Lake Stevens, WA, 98258  
LinkedIn: <http://bit.ly/3kL2e9L> | Portfolio: <http://bit.ly/3R6tGdW> | GitHub: <http://bit.ly/3Dfn9YK>

Full-Stack web developer who prioritizes UI/UX to provide users with a top tier experience. Earned a certificate in Full Stack Web Development from the University of Washington Coding Boot Camp. Motivated problem solver who is goal-oriented and focused on UX/UI to create modern and satisfying applications. Strengths in creativity, teamwork, and project management.

## TECHNICAL SKILLS

React, MySQL, NoSQL, MongoDB, GraphQL, Express, Node, Handlebars, jQuery, GIT, JavaScript ES6+, CSS3, HTML5, Bootstrap

## PROJECTS

### **Vinyl | [projectvinyl.herokuapp.com](http://projectvinyl.herokuapp.com) | <https://github.com/Noahbrown26/ProjectVinyl>**

A simple music search engine that utilizes the iTunes API with authenticated user-creation and SQL to handle saving user-data. Express-Handlebars was used as the templating engine to render the front-end. Includes a search bar that can search for artists and songs and generate music cards with audio snippets.

- Role: Back-end development, Database management, API development
- Technology: Express, Express-Handlebars, MySQL, Bootstrap

### **Stride | [stride-1.herokuapp.com](http://stride-1.herokuapp.com) | <https://github.com/Noahbrown26/Stride>**

A full-stack fitness-oriented application with a react front-end that utilizes a GraphQL API to handle user-data and JWT for authentication. Includes detailed workout cards generated from seeded data.

- Role: Full-stack development, Database management, API development
- Technology: Express, Node, React, GraphQL, MongoDB

### **Blog Bytes | [blog-bytes.herokuapp.com](http://blog-bytes.herokuapp.com) | <https://github.com/Noahbrown26/Personalblog>**

A responsive social media application that utilizes the MUI component library with React. Includes authenticated user creation, friends list, likes, and file uploading. React Redux was used for state management and MongoDB for holding user-data.

- Role: Personal Project
- Technology: Express, Node, React, MongoDB, MUI

## **EXPERIENCE**

**Veteran team member | 2015 - 2018**

**Black Diamond Fudge LLC | Black Diamond, WA |**

- Supervised, Evaluated, and Trained 4 personnel on daily store operations, increasing productivity by 20%.
- Cultivated customer relationships and boosted customer satisfaction by 15% by answering their questions and assisting them in troubleshooting.
- Collaborated with kitchen staff to organize and design a cleaning schedule that followed school district policies, meeting deadlines 96% of the time.

## **EDUCATION**

- **Certificate, Full Stack Web Development** – University of Washington, Seattle, WA  
A 24-week intensive program focused on gaining technical programming skills in HTML, CSS, JavaScript, SQL/NoSQL Databases, Express, Node, React, and more.
